Patient Information

Welcome to Orthoclinique

Our total focus is excellence in orthodontics. We understand that orthodontic treatment can be a daunting experience for any patient but the skills of our orthodontists will ensure that you are in the safest hands. Our team provides care and support every step of the way, ensuring you understand all aspects of your treatment at every stage of their journey. Our new facilities will completely reinforce this experience, providing the ultimate in patient care covering both NHS and private treatment.

Your First Appointment

A full assessment will be carried out by one of our experienced orthodontists. If you are under 18 years of age, your eligibility for NHS treatment will be checked according to the current NHS guidelines. In addition you may need have some special x-rays and study models taken to plan your treatment. Once your treatment has been carefully planned we will organise appointments to have your brace fitted. The first appointment usually takes about 30 minutes.

At Orthoclinique we offer a wide range of brace treatments including cosmetic braces. You will have an opportunity to discuss these with your orthodontist at your first visit. For more information visit our website - www.orthoclinique.co.uk
